

HIGH PERFORMANCE HAND PUMP

DESCRIPTION

The two-stage hand pumps from BEMCO remain capable of acting at all times in an emergency or in an explosive environment and can then quickly extend the telescopic cylinders in manual operation. The high-performance hand pumps are suitable for lifting or moving the load with one or two compact displacement units.

BENEFITS

- Rapid traversing possible thanks to the high output rate of the pump
- Suitable for use in environments with a risk of explosion, such as tunnels or underground shafts
- Effortless work thanks to low leverage forces

TECHNICAL SPECIFICATIONS

Model No	HP-02 49/2.8
Order Code	A-1003
Working Pressure	490 bar
Type of Pump	Two Stage Hand Pump
Oil output rate: High / low pressure	49 CC/ROKE UPTO 50 BAR, 2.8 cc/Stroke after 50 bar upto 490 bar.
Capacity of oil reservoir	25 ltrs.
Usable quantity	XXXXXX
Length	720 mm.
Width	350 mm.
Height	560 mm.
Weight without oil	45 Kg.
